

AVAILABLE IMMEDIATELY (February 2010)

ANALYST - MICROBIOLOGY

We are seeking an enthusiastic team-oriented **microbiologist** or **biochemist** for a permanent, full-time position at our southeast Calgary laboratories.

Requirements:

- Either a **BSc in Microbiology** *or* a **BSc in Biochemistry**
- Excellent oral and written English skills
- Currently living in or near Calgary, Alberta

Previous mycology experience would be a definite asset.

Applicants must include a cover letter stating salary requirements (a ballpark range is fine) and date of availability with their resume submissions.

This position will involve extensive training and work in mycology and bacteriology.

Only current Calgary and area residents with the required education and credentials will be considered for this position, due to time constraints.

No faxes or phone calls, please. Email resumes to: dniccoli [at] bio-chemconsulting [.com].
